All agreements and contracts are subject to the ability of the shipper to obtain the necessary manpower to dig and pack material and to priorities on material and transportation which may limit, restrict, or make impossible performance thereof.

Where quantity ordered is of sufficient amount, we can arrange for shipment by motor truck at reasonable rates. Our favorable location makes it advantageous for our customers to come with their trucks and take away their purchases.

You are cordially invited to call at our Nursery at any time, to inspect the material offered. We feel confident that the quality of our stock will please you. All of the items listed above can be furnished in quantities.

A NOTE TO OUR CUSTOMERS ABOUT HOW  
WE GROW OUR TREES

To begin with, we grow our trees for high-class landscape work, to give the immediate effect when set out. They are grown in well-spaced rows on fertile soils. We fertilize them each year with the correct commercial fertilizer to get the best color and most compact bodies possible. The trees are all several times transplanted, giving them the chance to develop the fine, fibrous root system, so necessary to easy, safe moving. Each tree is given careful, individual attention in shearing so as to put them in the best possible balanced symmetrical shape. Weeds are eliminated and the ground kept moist by constant horse cultivation and hand hoeing. Spraying, when necessary, is done to rid the nursery of any insect pests. Thus we grow some of the best specimen stock to be found anywhere in this section of the country. When you are in the vicinity, drop in at our nursery, and let us show you our stock.
